## S.E.E.D

Below is a picture of our charitable organization in the Philippines called "Missionary Seed". To cut a very long story short, I went over to marry my wife Berns in Manila back in September 2015. From there along with my father-in-law Rico and our tireless volunteers, we help children in the slum areas of Antipolo City. This is an ongoing project. Most of these children have now moved on to full time education. If you go to YouTube and type in: The Missionary Seed, you can view some of the videos which we made. With your help we can also Support, Educate, Equip and Develop these children:
